

# Introducing the Fontaine® ATB Bracket

*New computer aided design is  
almost 40 pounds lighter without sacrificing  
strength, durability or capacity!*

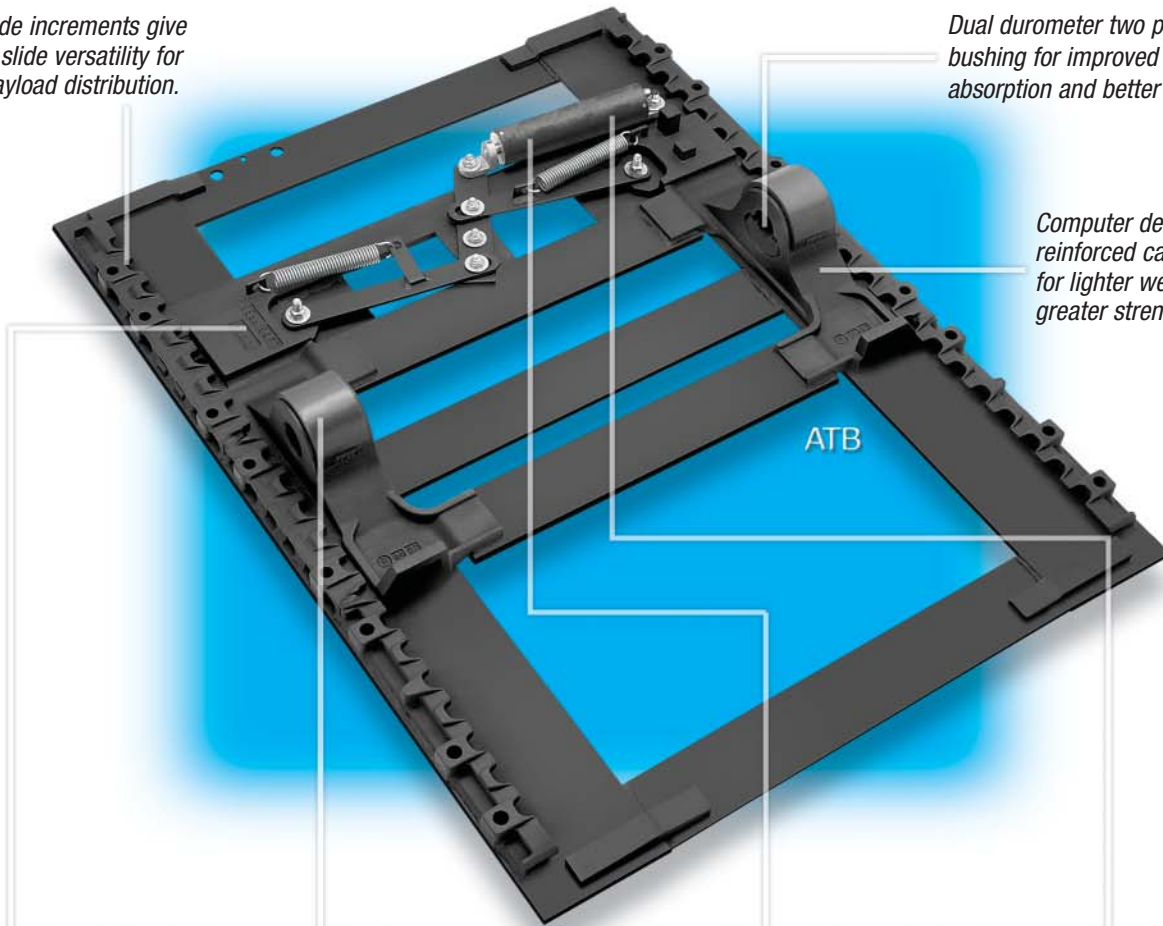

# Stronger. Lighter. Better. What else can we do for you?

## Introducing the Fontaine® ATB/MTB Fifth Wheel Mounting Bracket

*Two inch slide increments give you greater slide versatility for improved payload distribution.*

*Dual durometer two piece bushing for improved shock absorption and better support.*

*Computer designed reinforced cast bracket for lighter weight and greater strength.*

*New Quad-Lock™ four point locking system increases locking surface area for greater stability and improved wear characteristics.*

*New greaseless bracket liner gives you consistent lubrication, reduces wear (no metal-to-metal contact) and cuts maintenance costs.*

*Composite air cylinder features improved sealing performance and superior corrosion resistance for longer service life.*

*For customers preferring a manual slide rather than an air slide, Fontaine® offers the MTB model in the same sizes as the ATB.*
