Fontaine **Ultra HD**

Serious heavy-duty performance

70,000 lb vertical load

200,000 lb drawbar pull rating

Rated for off-highway use in severe service applications

- No road? No problem for the new Fontaine heavy-duty Ultra HD fifth wheel
- Ultra HD takes the best features of the No-Slack H5092 and X5092, and combines them into a single new heavy-duty top plate
- Rated for severe-duty applications such as oil fields, logging, chip hauling and end dump trailers
- Excellent fifth wheel for applications with poor road infrastructure
- Fits existing Fontaine mounts, including two sliders and a number of stationary mounts
- Also available as a blocked fifth wheel in a variety of sizes to cover more frameless dump applications than ever before
- Patent pending automatic secondary lock provides added safety and security
- Optional air actuation with in-cab air release (operates only when parking brake is engaged)
- Simple lock design is easy to rebuild for lower maintenance costs
- Visual lock indicator lets the driver know the lock status at a glance
- Like all Fontaine fifth wheels the Ultra HD features a patented lock design that eliminates the possibility of false trailer couplings to prevent dangerous high-hitching
