Adjustable Plate Mount
No-Slack® II 6000, 7000 & 7000CC PML
Standard to moderate duty

Features
A fixed fifth wheel is economical and strong, but it limits your hauling options. Now you can get the strength and economy of a fixed fifth wheel with the flexibility of slide increments thanks to the new Fontaine plate mount adjustable bracket. Affordable strength and flexibility make PML perfect for a wide range of hauling needs. Plus, it is loaded with the performance features our customers really want.

• Two-inch adjustment increments give you greater versatility for improved payload distribution
• New greaseless bracket liner gives you consistent lubrication, reduces wear (no metal-to-metal contact) and cuts maintenance costs
• Dual durometer two-piece bushing for improved shock absorption and better support
• Computer designed reinforced cast bracket for lighter weight and greater strength
• Computer design technology empowered Fontaine engineers to cut excess weight without sacrificing one pound of capacity
• Brackets are welded to a 3/8" steel plate that has six bolt holes on each side

Options
• Right hand (replace SL with SR)
• Air actuated (replace SL with AA): add 5 lbs
• Auto-lube left (replace SL with AL) Auto-lube models are drilled and tapped for lube system (7000/7000CC)
• Electronic lock indicator left (replace SL with SLE) (7000/7000CC)
• Manual lock indicator left (replace SL with SLL) (7000/7000CC)

Typical left hand model shown in chart.
