

We Make it EASY

Installing NTLWO 12" Slides on existing OEM mounting angles

All mounting angles provided below are standard OEM specified length mounting angles designed for 12" slide travel fifth wheels. Hole center spacing is based on OEM standards, front to rear hole alignment may vary. The NTLWO model represented below is for a 12" slide travel fifth wheel (31" overall rail length). The diagrams below place the (yellow) NTLWO in the recommended installation position on the mounting angle to illustrate the rearmost installation location. The green numbers represent the bolt locations for each OEM mounting angle. On some OEM models additional drilling is required for proper mounting (see red).

Part Number	Fifth Wheel Height	Slide Length	Weight
SLNTLW0675012	6-3/4"	12"	384 lbs
SLNTLW0775012	7-3/4"	12"	389 lbs

OEM names used for reference purposes only.
